Testimonial – Northern Suburbs School, Community Hub

“We have had several children from the school that have vacated their home and have been couch surfing with their family, these backpacks have displayed to these children, we care and are here for them with emergency items when they are vulnerable and in need. The children are excited to receive items that are new and of good quality. Without the donation of backpacks, these children would not have had clean clothes and PJ's. Thank you!”

Testimonial – Foster Carer

“We've seen the remarkable transformation in children as they unpack their backpacks, realising that everything inside is just for them. It's truly special to witness. The Backpacks are so thoughtfully prepared, offering a bit of comfort and brightness during the most challenging and traumatic times for these children. We are deeply grateful to the entire Backpacks 4 SA Kids team for helping foster carers like us care for the most vulnerable in our community.”

Testimonial – Anglicare SA

The backpacks become an integral part of the child's life during a stressful time in their lives, something that they hold close and as they look through their backpack the realisation these items are theirs brings a smile to their faces. Placements come with short notice and the backpacks provided come with suitable clothes, books, toys, toothbrush, and other toiletries all age and size appropriate. The feedback from carers and recipients have always been positive.

Testimonial – Aboriginal Drug and Alcohol Service

“A backpack helped a girl who had to leave home quickly with nothing. When she got the backpack with new clothes, a toothbrush, and other items, she smiled and said, “This is all mine?” It made her feel cared for and helped her feel more comfortable in a hard time.”

Testimonial – Aboriginal Family Support Service

We support youth homeless accommodation, these backpacks have been amazing and so useful for our clients as they come here with not much at all, some only have the clothes they have on when they enter, so when we give them a backpack, they appreciate them so much - deodorant, body wash, jumpers, socks etc.
